### Vinification

Both Pinotage and Shiraz had 3 days of coldsoak at 10°C before inoculation. The Pinotage fermented then for 5 days on skins, at 30°C and macerated for a further 5 days before being pressed. After malolactic fermentation in tanks, both Shiraz and Pinotage matured for a further 5 months in tank before blending. No oak was used.

### Tasting Notes

Medium intense cherry red colour. The nose is reminiscent of red currant and red cherries with a hint of strawberries and spices. This medium bodied wine is well supported by soft ripe tannins and intense berry flavours resulting in a lengthy aftertaste.

### Food Pairing

This cheerfully unwooded wine can be served with a generous slice of pizza or enjoy with friends at a braai. Perfect with almost any happy and festive occasion!
